ABOUT ME

A dedicated and detail-oriented Computer Engineering diploma holder with a strong passion for web development. Skilled in building responsive and functional websites using HTML, CSS, JavaScript, and modern tools. Quick learner with a focus on clean code, user experience, and continuous improvement.

EDUCATION

2022 - 2025

S.S.O.S.P. Polytechnic
Nagothane

Diploma in Computer Engineering

Studied core subjects like web development, programming, networking, and database management. Gained hands-on experience through academic projects and real-world design work.

2018 - 2020

J.S.M. College
Alibag

HSC Science

Completed foundational studies in mathematics, physics, and chemistry , developing strong analytical and problem-solving skills.

PROJECT EXPERIENCE

2024-2025

Business Data Analysis
Web Application

Project Lead & Developer

Developed a Flask-based web app for shopkeepers to analyze sales data. Enabled CSV/Excel uploads and generated visual dashboards showing sales trends, top products, and customer insights.

May 2025

Personal Portfolio
Website

Web Developer

Built a responsive personal portfolio using HTML, CSS, and JavaScript. Showcases projects, skills, and includes a contact form. Designed for both mobile and desktop users and deployed using GitHub Pages
